About Me

MERN STACK INTERN

Highly motivated and hard-working aspiring React Developer. Efficient in writing code to create Web Apps that are reliable and user-friendly. Looking forward to utilizing my current skillset and learning new skills to meet the organization's goals.

INTERNSHIPS

August 2023 - Present

MERN Stack Intern • Irohub Infotech, Ernakulam

20th December 2021 – 31st December 2021

Embedded System Internship • Shrishti Robotics

PROJECTS

Portfolio Website

- Portfolio Website using HTML, CSS and javascript

Calculator and Analog Clock

- Built using HTML, CSS and Javascript

TODO List

- Built with react

Embedded System for Waste Segregation

- Built an embedded system for waste segregation using digital image processing
- Different bio medical wastes were identified and separated with the help of raspberry pi, a camera, python codes and hardware components

Function Generator Using FPGA

- Developed a function generator producing different waveforms with the help of an FPGA, Verilog code and other components.
